**NEW QUESTION: 1** A company sales manager received a memo from the company's financial department which stated that the company would not be putting its software products through the same security testing as previous years to reduce the research and development cost by 20 percent for the upcoming year. The memo also stated that the marketing material and service level agreement for each product would remain unchanged. The sales manager has reviewed the sales goals for the upcoming year and identified an increased target across the software products that will be affected by the financial department's change. All software products will continue to go through new development in the coming year. Which of the following should the sales manager do to ensure the company stays out of trouble?  
**A.** Discuss the issue with the software product's user groups  
**B.** Contact senior finance management and provide background information  
**C.** Consult the company's legal department on practices and law  
**D.** Seek industry outreach for software practices and law  
**Answer: C**  
**Explanation:** To ensure that the company stays out of trouble, the sales manager should enquire about the legal ramifications of the change by consulting with the company's legal department, particularly as the marketing material is not being amended.  
**Incorrect Answers:** A: The software product's user groups would not have insight on the legal ramifications of the change by the company, and they might not have knowledge of the service-level agreements or any contracts that the company has with other customers. C: The sales manager does not have additional background information to provide. D: Legal information pertaining to internal operations should be obtained from the company's legal department.

**NEW QUESTION: 2** An administrator observes that virtual machine storage activity on an ESXi 6.x host is negatively affecting virtual machine storage activity on another host that is accessing the same VMFS Datastore. Which action would mitigate the issue?  
**A.** Enable Storage I/O Control.  
**B.** Enable the Dynamic Queue Depth Throttling option.  
**C.** Configure the Disk.SchedNumReqOutstanding parameter.  
**D.** Configure Storage DRS.  
**Answer: A**

**NEW QUESTION: 3** A 65-year-old male with terminal brain cancer calls 911 for shortness of breath. The patient has a Do Not Resuscitate order. What should you do for this patient?  
**A.** Discuss the situation with the family and try to persuade them not to have the patient transported.  
**B.** Administer oxygen and transport the patient to the most appropriate emergency room.  
**C.** Contact the patient's oncologist for directions on the patient's care.  
**D.** Contact medical direction about administering oxygen and not transporting the patient.  
**Answer: B**  
**Explanation:** Explanation/Reference: Explanation: The patient has the right to comfort care even if he is a DNR. This means that the patient has the right to receive oxygen and medications for pain. The patient has the right to make his own medical decisions unless his family has the medical power of attorney to decide if the patient is transported. Patients have the right to die with dignity.
