NEW QUESTION: 1When a customer deploys an EMC Data Domain system at a remote location that does not have an IT staff, what type of remote management method(s) is possible?**A.** Managed with IPMI commands only**B.** Managed with SOL commands only**C.** Managed with IPMI and SOL commands**D.** Managed with iDRAC and SOL commands**Answer: C**

NEW QUESTION: 2A. 3.95 Mbps**B.** 2.25 Mbps**C.** 10.00 Mbps**D.** 7.20 Mbps**Answer: A****Explanation:**
Topic 1, Contoso, LtdGeneral OverviewContoso, Ltd., is a manufacturing company that has 4,000 employees. The company has a sales department, a marketing department, a research department, and a human resources department.Physical LocationsThe company has four offices. The offices are configured as shown in the following table.The New York office contains the main data center. Communications for all of the offices is routed through the New York office.All telephone calls from the Los Angeles office and the Miami office are routed through a public switched telephone network (PSTN) gateway in the New York office.All offices connect to each other by using a wide area network (WAN) link. Each office connects directly to the Internet.Existing EnvironmentActive Directory EnvironmentThe company has an Active Directory Domain Services (AD DS) forest named contoso.com. The forest contains a single domain. All domain controllers run Windows Server 2008 R2.Each office contains two domain controllers. Each office is configured as an AD DS site.Each office contains DHCP servers that run on 32-bit servers.Skype for Business Server EnvironmentThe company has nine servers. The servers are configured as shown in the following table.The company uses a SIP domain of contoso.com. The voice infrastructure is configured as shown in the following table.All users are enabled for Enterprise Voice.The company also contains two Edge Servers that have Skype for Business Server 2015 deployed. The servers are configured as shown in the following table. The Miami office has a dial plan. The dial plan is configured as shown in the following table.The Skype for Business Server 2015 configuration has five routes. Location-based routing is not configured.The routes are configured as shown in the following table.The PSTN usage for the users in the Los Angeles office is configured as shown in the following table.Problem StatementsThe company identifies the following issues with the current infrastructure:Los Angeles users report that the audio quality during calls to the New York office is poor and that the calls often disconnect.Users in the Miami office report that when their WAN link fails, they cannot establish calls to the PSTN.The Miami users report that they cannot call the Los Angeles users by using a five-digit internal phone number.RequirementsPlanned ChangesThe company plans to implement the following changes:Provide voice resiliency in all of the offices if a WAN link fails.Implement Call PackImplement an unassigned number range that has a voice announcement.Add an additional auto attendant.Implement a gateway in the Los Angeles

office that uses the local PSTN. Migrate several users to Skype for Business Online. The users will use instant messaging (IM) with Skype for Business users only. Client computers will use automatic configuration and open federation. The migrated users will use a SIP domain of cloud.contoso.com. Provide a backup route for each office if a gateway fails. Provide each office with access to the local PSTN. Technical Requirements The company identifies the following technical requirements: Enable five-digit internal dialing that uses the site code and the last four digits of the phone number range. Configure the New York gateway as the backup route for the local gateway in each office. Business Requirements Changes to the infrastructure must minimize the number of new servers deployed.

NEW QUESTION: 3 Following is the information that audit charters generally address. **A.** The phrases used to express the auditor's opinion are "give a true and fair view" or "present fairly, in all material respects", which are equivalent terms. **B.** The objective of an audit of financial statements is to enable the auditor to express an opinion whether the financial statements are prepared, in all material respects, in accordance with an identified financial reporting framework. **C.** The auditor's opinion enhances the credibility of the financial statements, the user cannot assume that the opinion is an assurance as to the future viability of the entity nor the efficiency or effectiveness with which management has conducted the affairs of the entity. **D.** Definition of the audit unit's responsibilities, goals, and objectives **Answer: D**
