**NEW QUESTION: 2** DRAG DROP You are the Office 365 administrator for your company. You need to ensure that trusted applications can decrypt rights-protected content. Which four Windows PowerShell cmdlets should you run in sequence? To answer, move the appropriate cmdlets from the list of cmdlets to the answer area and arrange them in the correct order. Select and Place:**Answer:** Explanation: Explanation/Reference: Explanation: Microsoft Azure Rights Management (previously known as Windows Azure Active Directory Rights Management). To be able to decrypt rights protected documents you need to make sure that Microsoft Azure Rights Management is set up. Also you will need to enable a SuperUser account because The Active Directory Rights Management Services (AD RMS) super users group is a special group that has full control over all rights-protected content managed by the cluster. Its members are granted full owner rights in all use licenses that are issued by the AD RMS cluster on which the super users group is configured. This means that members of this group can decrypt any rights-protected content file and remove rights- protection from it. The super users group is not enabled and is not assigned a group by default. This can be done by running the appropriate commands in sequence which are: Import-Module AADRMConnect-AADRMService Enable-AADRMEnable-AADRMSuperUserFeatureReferences: <https://technet.microsoft.com/en-us/library/dn569291.aspx> <https://technet.microsoft.com/en-us/library/dn151475%28v=exchg.150%29.aspx>

**NEW QUESTION: 3** A. Option DB. Option AC. Option BD. Option C **Answer: D**

**NEW QUESTION: 4** The victory of the small Greek democracy of Athens over the mighty Persian empire in 490 B. C. is one of the most famous events in history. Darius, king of the Persian empire, was furious because Athens had interceded for the other Greek city-states in revolt against Persian domination. In anger the king sent an enormous army to defeat Athens. He thought it would take drastic steps to pacify the rebellious part of the empire. Persia was ruled by one man. In Athens, however, all citizens helped to rule. Ennobled by this participation, Athenians were prepared to die for their city-state. Perhaps this was the secret of the remarkable victory at Marathon, which freed them from Persian rule. On their way to Marathon, the Persians tried to fool some Greek city-states by claiming to have come in peace. The frightened citizens of Delos refused to believe this. Not wanting to abet the conquest of Greece, they fled from their city and did not return until the Persians had left. They were wise, for the Persians next conquered the city of Etria and captured its people. Tiny Athens stood alone against Persia. The Athenian people went to their sanctuaries. There they prayed for deliverance. They asked their gods to expedite their victory. The Athenians refurbished their weapons and moved to the plain of Marathon, where their little band would meet the Persians. At the last moment, soldiers from Plataea reinforced the Athenian troops. The Athenian army attacked, and Greek citizens fought bravely. The power of the mighty Persians was offset by the love that the Athenians had for their city. Athenians defeated the Persians in archery and hand combat. Greek soldiers seized Persian ships and burned them, and the Persians fled in terror. Herodotus, a famous historian, reports that 6400 Persians died, compared with only 192 Athenians. The people of Delos did not want to \_\_\_ the conquest of Greece. **A.** end **B.** answer not available **C.** think about **D.** daydream about **E.** encourage **Answer: E**
