So what you need most is to know the whole examination process, You can try free demo before buying H19-338\_V3.0 exam materials, so that you can know what the complete version is like.

**NEW QUESTION: 1** Which three statements about the route preference of IS-IS are true? (Choose three.)**A.** An L2 path is preferred over an L1 path.**B.** Within each level, a path that supports optional metrics is preferred over a path that supports only the default metric.**C.** Within each level of metric support, the path with the lowest metric is preferred.**D.** The Cisco IS-IS implementation usually performs equal cost path load balancing on up to eight paths.**E.** An L1 path is preferred over an L2 path.**F.** Both L1 and L2 routes will be installed in the routing table at the same time.**Answer: B,C,E****Explanation:** Given multiple possible routes to a particular destination, an L1 path is preferred over an L2 path. Within each level, a path that supports the optional metrics is preferred over a path that supports only the default metric. (Again, Cisco supports only the default metric, so the second order of preference is not relevant to Cisco routers.) Within each level of metric support, the path with the lowest metric is preferred. If multiple equal-cost, equal-level paths are found by the Decision process, they are all entered into the route table. The Cisco IS-IS implementation usually performs equal-cost load balancing on up to six paths.**Reference:**

**NEW QUESTION: 2** Which two NetApp products can be used in a customer's existing thirdparty Exchange storage environment? (Choose two.)**A.** SnapManager for Exchange**B.** Single Mailbox Recovery software**C.** ReplicatorXD**D.** Operations Manager**Answer: B,C**

**NEW QUESTION: 3** An office printer that was working earlier in the day is no longer printing any documents. Pre-existing workstations are manually configured to print to the printer directly over the network. A technician has started to troubleshoot the problem and determines that the printer can still be seen in the network directory. The technician has also verified that the printer can print self-diagnostic pages successfully. Which of the following is the MOST likely cause of the problem?**A.** The network print spooler service has been restarted.**B.** The printer's IP address has changed.**C.** Two or more users sent print jobs simultaneously, causing a print collision.**D.** "Perform Printer Maintenance" message is displayed on the printer's LCD panel.**Answer: B**
