NEW QUESTION: 1HOTSPOTYou need to write code to comply with the search requirements of the item detail page. You have the following code:Which code snippets should you insert in Target 1, Target 2, Target 3, and Target 4 to complete the code? (To answer, select the correct code snippet from each drop-down list in the answer area.)**Answer:** Explanation:Topic 2, Scenario 2OverviewFabrikam, Inc. is a realtor in the United States.Fabrikam grants its customers access to a web site, where they can search for houses for rent and for sale. Its customers can enter basic requirements, such as location, number of rooms, dimensions, and a price range. The web site displays a list of houses that meet the customers' criteria. The customers can then view more details about each house and can add a listing to a favorites list. RequirementsBusiness GoalsFabrikam plans to provide a more interactive experience for its customers. Fabrikam is creating a video tour for each listing. The video tours can be used to visit the property virtually. Fabrikam plans to create a Windows Store app on Windows 8.1 RT and Windows 8.1 Pro devices.General RequirementsFabrikam identifies the following general requirements for the app: - The app interface must be available in English, Spanish, and French. - The app must provide the customers with the ability to perform searches the sameway that the current web site does. - It is expected that the customers will view more than 3,000 pictures annually. The main page of the app must show a list of the last 10 pictures that were viewed.- If pictures are added to a listing that is in a customer's favorites list, the pictures must be downloaded automatically from Microsoft Azure. This must occur if the app is suspended or not running.Printing RequirementsCustomers must be able to print the details of a listing from the details page by clicking a button within the app. You plan to add the following XAML markup to the listing details page:<Button x:Name="btnPrint" Content="Print" Click="InvokePrint" />. Video Tour RequirementsFabrikam identifies the following requirements for the video tours: - Customers must be able to play the video tour on a different device by using a button within the app. - When a customer clicks the details of a listing, the app must start downloading the video tour in the background. - When the app starts, the app must verify whether there are any

pending downloads, and resume any paused downloads. - The last five viewed video tours that are not on the customer's favorites list must be cached for subsequent viewing. - Customers must be able to download all of the video tours for the properties that they added to their favorites list. - The property details page must contain a MediaElement control that will be used to play the video tour of the property. - When downloading the video tours, the app must remain responsive, and each download must be processed on a separate thread. Package appxmanifest

NEW QUESTION: 2 A company plans to deploy Azure Active Directory (Azure AD). The company needs to purchase the appropriate Azure AD license or licenses while minimizing the cost. Match each Azure AD license to its requirement. To answer, drag the appropriate Azure AD license from the column on the left to its requirement on the right. Each Azure AD license may be used once, more than once, or not at all. NOTE: Each correct match is worth one point.

Answer: Explanation:
