After you purchase Databricks-Certified-Data-Engineer-Professional training information, we will provide one year free renewal service, They are PDF version, online test engines and windows software of the Databricks-Certified-Data-Engineer-Professional study materials.

NEW QUESTION: 1 Welche der folgenden Sicherheitsereignisse würden für eine Organisation, die webbasierte Dienste bereitstellt, wahrscheinlich einen Vorfallreaktionsplan initiieren und an das Management weitergeleitet werden?
A. Anti-Malware-Warnungen auf den Arbeitsstationen mehrerer Mitarbeiter
B. Mehrere fehlgeschlagene Anmeldeversuche auf der Workstation eines Mitarbeiters
C. Verdächtiger Netzwerkverkehr aus der entmilitarisierten Zone (DMZ)
D. Mehrere Port-Scans des Webservers
Answer: A

NEW QUESTION: 2 Which of the following would be the MOST important factor to consider when building a virtualization workstation?
A. Maximum RAM and CPU cores
B. High-end graphics card with onboard memory
C. Dual monitor support
D. A compact form factor
Answer: A
AExplanation: Virtualization requires a lot of memory and processing power. If you install 2 or 3 operating systems, you will be needing memory and processors to keep them running in optimal condition. Therefore, you need maximum RAM and CPU cores to make sure you have

enough resources for your virtualization platform.

NEW QUESTION: 3 A company named Rel Inc. has many authorized dealers across the country who sell their products. The Sales Manager of the company wants to see the details of the authorized dealers, including the name, region, and total sales in ascending order of sales. Which of the following queries should be issued to get the desired output?
A. SELECT Name, Region, Totalsales FROM Dealer ORDER BY Totalsales
B. SELECT * FROM Dealer WHERE MAX (Totalsales)
C. SELECT FROM Dealer
D. SELECT MAX (Totalsales) FROM Dealer
Answer: A
Explanation: The first part of the query (i.e. SELECT Name, Region, Totalsales) selects the Name, Region, and Totalsales attributes. The second part (i.e. FROM Dealer) specifies the table name, and the third part (i.e. ORDER BY Totalsales) gives Totalsales in ascending order. In the ORDER BY clause, ascending is the default order. Answer B is incorrect. The SELECT clause does not specify the attributes. Answer A is incorrect. The query fails to provide the details from the table. It will provide only the maximum sales from the table. Answer C is incorrect. MAX is an aggregate function. An aggregate function cannot be in the WHERE clause.

NEW QUESTION: 4 Defined contribution plans are an example of which kind of employee benefits?
A. Termination benefits
B. Long-term benefits
C. Post-employment benefits
D. Short-term benefits
Answer: C
