Our E_S4CPE_2023 study materials will become your new hope.

NEW QUESTION: 1 Danny worked 40 hours and earned \$6.30 per hour. His friend Erica earned \$8.40 per hour at her job. How many hours would Erica have to work in order to equal Danny's earnings for 40 hours? **A.** Not enough information is given. **B.** 0 **C.** 1 **D.** 2 **E.** 3 **Answer: B**
Explanation: Explanation/Reference: Explanation: Danny earned a total of $40(\$6.30) = \252 . To find the number of hours Erica would take to earn \$252, divide \$252 by \$8.40.

NEW QUESTION: 2 Which two statements about VRRP advertisements are true? (Choose two) **A.** They are sent from the master router and standby routers. **B.** They are sent only from the master router. **C.** They include priority information. **D.** They include VRRP timer information. **E.** They are sent every three seconds by default. **Answer: B, C**
Explanation: VRRP Advertisements
The virtual router master sends VRRP advertisements to other VRRP routers in the same group. The advertisements communicate the priority and state of the virtual router master. The VRRP advertisements are encapsulated in IP packets and sent to the IP Version 4 multicast address assigned to the VRRP group. The advertisements are sent every second by default; the interval is configurable. Although the VRRP protocol as per RFC 3768 does not support millisecond timers, Cisco routers allow you to configure millisecond timers. You need to manually configure the millisecond timer values on both the primary and the backup routers. The master advertisement value displayed in the show vrrp command output on the backup routers is always 1 second because the packets on the backup routers do not accept millisecond values. You must use millisecond timers where absolutely necessary and with careful consideration and testing. Millisecond values work only under favorable circumstances, and you must be

aware that the use of the millisecond timer values restricts VRRP operation to Cisco devices only.

NEW QUESTION: 3

IKEv2デフォルトプロポーザルに含まれるトランスフォームセットの2つの例はどれですか？
(2つ選択してください。) **A.** 3des, sha1, 1**B.** aes-cbc-192, sha256, 14**C.** aes-cbc-128, sha, 5**D.** 3des, md5, 5**Answer: C,D**
