Which of the following will occur if the certificate is allowed to expire?**A.** The ecommerce site will no longer use encryption.**B.** The certificate will be added to the Certificate Revocation List (CRL).**C.** Clients will be notified that the certificate is invalid.**D.** The ecommerce site will not function until the certificate is renewed.**Answer: C**
Explanation: A similar process to certificate revocation will occur when a certificate is allowed to expire. Notification will be sent out to clients of the invalid certificate. The process of revoking a certificate begins when the CA is notified that a particular certificate needs to be revoked. This must be done whenever the private key becomes known. The owner of a certificate can request that it be revoked at any time, or the administrator can make the request.
