Internet users can reach to the Web server, since it uses port 80.Box 2:If Rule2 is removed internet users can reach the DNS server as well.Note: Rules are processed in priority order, with lower numbers processed before higher numbers, because lower numbers have higher priority. Processing stops once traffic matches a rule, as a result, any rules that exist with lower priorities (higher numbers) that have the same attributes as rules with higher priorities are not processed.References:
