cemp://<CEServer>:<port>/P8CE/Health**B.** iiop://<CEServer>:<port>/P8CE/Health**C.**

http://<CEServer>:<port>/P8CE/Health**D.** t3://<CEServer>:<port>/P8CE/Health**Answer: C**

NEW QUESTION: 2A company has 50 client computers that run Windows 8. Forty client computers are connected to a secure internal network, and 10 client computers are located in public kiosks. A new company security policy includes the following requirements: Visitors can access only kiosk computers. Employees can access and shut down only internal computers. Only administrators can access all computers remotely. Only administrators can shut down kiosk computers. You need to assign security groups to local security policies to meet the requirements. What should you do? (To answer, drag the appropriate security group or groups to the correct location or locations in the answer area. Security groups may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.) Select and Place:**Answer:** Explanation: Section: Configure Access to Resources (14%) Explanation

NEW QUESTION: 3Which four actions are possible during an Online Data file Move operation?**A.** Querying tables in the data file being moved**B.** Executing DML statements on objects stored in the data file being moved**C.** Creating and dropping tables in the data file being moved**D.**

Performing file shrink of the data file being moved**E.** Flashing back the database**F.** Performing Block Media Recovery for a data block in the data file being moved**Answer: A,B,C,F**

Explanation:- You can now move On line Datafile without have to stop Monoged Recovery and manually copy and rename Files. This can even be used to move Datafiles from or to ASM.-New in Oracle Database 12c: FROM METAUNK. Physical Standby Database is in Active Data Guard Mode (opened READ ONLY and Managed Recovery is running): It is now possible to online move a Datafile while Managed Recovery is running, ie. the Physical Standby Database is in Active Data Guard Mode. You can use this Command to move the Datafile-A flashback operation does not relocate a moved data file to its previous location. If you move a data file online from one location to another and later flash back the database to a point in time before the move, then

the Data file remains in the new location, but the contents of the Data file are changed to the contents at the time specified in the flashback. Oracle® Database Administrator's Guide 12c Release 1 (12.1)

NEW QUESTION: 4A. Option BB. Option CC. Option DD. Option AE. Option FF. Option E
Answer: A,C,F
