Love is precious and the price of freedom is higher, Choose us!

NEW QUESTION: 1 Which function processes device information and applies actions automatically based on configurations created by an administrator? **A.** Conditional Access **B.** Device Profile **C.** Admin Reports **D.** Compliance Policy **Answer: B**

NEW QUESTION: 2 A solutions architect is designing a multi-tier application for a company. The application's users upload images from a mobile device. The application generates a thumbnail of each image and returns a message to the user to confirm that the image was uploaded successfully. The thumbnail generation can take up to 60 seconds, but the company wants to provide a faster response time to its users to notify them that the original image was received. The solutions architect must design the application to asynchronously dispatch requests to the different application tiers. What should the solutions architect do to meet these requirements? **A.** Create an AWS Step Functions workflow. Configure Step Functions to handle the orchestration between the application tiers and alert the user when thumbnail generation is complete. **B.** Create Amazon Simple Notification Service (Amazon SNS) notification topics and subscriptions. Use one subscription with the application to generate the thumbnail after the image upload is complete. Use a second subscription to message the user's mobile app by way of a push notification after thumbnail generation is complete. **C.** Create an Amazon Simple Queue Service (Amazon SQS) message queue. As images are uploaded, place a message on the SQS queue for thumbnail generation. Alert the user through an application message that the image was received. **D.** Write a custom AWS Lambda function to generate the thumbnail and alert the user. Use the image upload process as an event source to invoke the Lambda function. **Answer: D**

NEW QUESTION: 3 Which of the following is NOT a valid filter option in the ICC File System collector? **A.** By date **B.** By read-only file **C.** By already processed **D.** By file extension **Answer: A**

NEW QUESTION: 4 Which HP Services benefits should you share with a customer who insists that they can repair devices themselves? (Select three.) **A.** HP Services allows you to avoid unexpected costs after the base warranty expires. **B.** HP Services removes the burden on your IT team so they can focus on the core business tasks. **C.** HP products are less likely to need repairs if HP professionals are monitoring them. **D.** Replacement of HP products costs less if customers only use HP devices. **E.** HP Services makes it so you do not have to worry about access to spare parts. **Answer: A,D,E**
