NEW QUESTION: 1

注：この質問は、同じシナリオを提示する一連の質問の一部です。シリーズの各質問には、記載された目標を達成する可能性のある独自のソリューションが含まれています。一部の質問セットには複数の正しい解決策がある場合もあれば、正しい解決策がない場合もあります。

このセクションの質問に回答すると、その質問に戻ることはできません。その結果、これらの質問はレビュー画面に表示されません。Azure Security

Centerを使用して、3つのAzureサブスクリプションの一元化されたポリシー管理を行います。

いくつかのポリシー定義を使用して、サブスクリプションのセキュリティを管理します。

3つのサブスクリプションすべてにポリシー定義をグループとして展開する必要があります。

解決策：リソースグループをスコープとするポリシー定義と割り当てを作成します。

これは目標を達成していますか？ **A.** いいえ **B.** はい **Answer: A** Explanation: References:

<https://4sysops.com/archives/apply-governance-policy-to-multiple-azure-subscriptions-with-management-groups/> Topic 1, Litware, inc This is a case study. Case studies are not timed

separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that

provide more information about the scenario that is described in the case study. Each question is independent of the other question on this case study. At the end of this case study, a review

screen will appear. This screen allows you to review your answers and to make changes before you move to the next sections of the exam. After you begin a new section, you cannot return to

this section. To start the case study To display the first question on this case study, click the Next

button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an All Information tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the Question button to return to the question.

OverviewLitware, Inc. is a digital media company that has 500 employees in the Chicago area and 20 employees in the San Francisco area.

Existing EnvironmentLitware has an Azure subscription named Sub1 that has a subscription ID of 43894a43-17c2-4a39-8cfc-3540c2653ef4. Sub1 is associated to an Azure Active Directory (Azure AD) tenant named litwareinc.com. The tenant contains the user objects and the device objects of all the Litware employees and their devices. Each user is assigned an Azure AD Premium P2 license. Azure AD Privileged Identity Management (PIM) is activated. The tenant contains the groups shown in the following table. The Azure subscription contains the objects shown in the following table. Azure Security Center is set to the Free tier. Planned changes Litware plans to deploy the Azure resources shown in the following table. Litware identifies the following identity and access requirements:

- * All San Francisco users and their devices must be members of Group1.
- * The members of Group2 must be assigned the Contributor role to Resource Group2 by using a permanent eligible assignment.
- * Users must be prevented from registering applications in Azure AD and from consenting to applications that access company information on the users' behalf.

Platform Protection RequirementsLitware identifies the following platform protection requirements:

- * Microsoft Antimalware must be installed on the virtual machines in Resource Group1.
- * The members of Group2 must be assigned the Azure Kubernetes Service Cluster Admin Role.
- * Azure AD users must be able to authenticate to AKS1 by using their Azure AD credentials.
- * Following the implementation of the planned changes, the IT team must be able to connect to VM0 by using JIT VM access.
- * A new custom RBAC role named Role1 must be used to delegate the administration of the managed disks in Resource Group1. Role1 must be available only for Resource Group1.

Security Operations RequirementsLitware must be able to customize the operating system security configurations in Azure Security Center.

NEW QUESTION: 2 For which of the following activities would the costs be classified as a cost of detection? Number of correct responses: 1

B. Organization Unit

C. User container

D. Country

Answer: C

Explanation: Explanation/Reference: Explanation: Distinguished Name Components CN=common name, OU=organizational unit, O=organization, L=locality, ST=state or province, C=country name

Reference: https://sc1.checkpoint.com/documents/R76/CP_R76_SecMan_WebAdmin/html_frameset.htm?topic=documents/R76/CP_R76_SecMan_WebAdmin/71950

NEW QUESTION: 4 Which of the following devices should be placed within a demilitarized zone (DMZ)?

A. Database server

B. Network switch

C. File/print server

D. Web server

Answer: D

Explanation: A web server should normally be placed within a demilitarized zone (DMZ) to shield the internal network. Database and file/print servers may contain confidential or valuable data and should always be placed on the internal network, never on a DMZ that is subject to compromise. Switches may bridge a DMZ to another network but do not technically reside within the DMZ network segment.
