NEW QUESTION: 2 文章を完成させるには、回答領域で適切なオプションを選択してください。
Answer: Explanation:

NEW QUESTION: 3 Which of the following are the benefits of information classification for an organization? Each correct answer represents a complete solution. Choose two. **A.** It helps identify which protections apply to which information. **B.** It helps reduce the Total Cost of Ownership (TCO). **C.** It helps identify which information is the most sensitive or vital to an organization. **D.** It ensures that modifications are not made to data by unauthorized personnel or processes. **Answer: A, C** Explanation: Explanation/Reference: Explanation: Following are the benefits of information classification for an organization: It helps identify which protections apply to which information. It helps identify which information is the most sensitive or vital to an organization. It supports the tenets of confidentiality, integrity, and availability as it pertains to data. Answer D is incorrect. The concept of integrity ensures that modifications are not made to data by unauthorized personnel or processes. It also ensures that unauthorized modifications are not made to data by authorized personnel or processes. Answer A is incorrect. Information classification cannot reduce the Total Cost of Ownership (TCO).

NEW QUESTION: 4Your network contains an Active Directory forest named contoso.com. You have an Azure Directory (Azure AD) tenant named contoso.com. You plan to configure synchronization by using the Express Settings installation option in Azure AD Connect. You need to identify which roles and groups are required to perform the planned configurations. The solution must use the principle of least privilege. Which two roles and groups should you identify? Each correct answer presents part of the solution. NOTE: Each correct selection is worth one point.
A. the Security administrator role in Azure AD
B. the Domain Admins group in Active Directory
C. the Enterprise Admins group in Active Directory
D. the User administrator role in Azure AD
E. the Global administrator role in Azure AD
Answer: C,E
Explanation:
