As long as you choose our SC-400 exam questions, you will get the most awarded.

**NEW QUESTION: 1**When issuing the zonestat 2 1h is command, the following information is displayed:Which two options accurately describe the statistics contained in the output?**A.** dbzone is using 5.48% of the total physical memory that has been allocated to the zone.**B.** dbzone is using 0.21% of the total CPU resource available in the zone's processor set.**C.** The network is being utilized 100% with no physical bandwidth remaining.**D.** dbzone is using 2.37% of the global zone's total virtual memory.**E.** dbzone is using 0.21% of the global zone's total CPU.**Answer: A,B**  
Explanation:Explanation/Reference:Explanation:A: %PARTThe amount of cpu used as a percentage of the total cpu in a processor-set to which the zone is bound. A zone can only have processes bound to multiple processor sets if it is the global zone, or if psrset(1m) psets are used. If multiple binding are found for a zone, it's %PART is the fraction used of all bound psets.For [total] and [system], %PART is the percent used of all cpus on the system.Note: The zonestat utility reports on the cpu, memory, and resource control utilization of the currently running zones. Each zone's utilization is reported both as a percentage of system resources and the zone's configured limits.The zonestat utility prints a series of interval reports at the specified interval. It optionally also prints one or more summary reports at a specified interval.

**NEW QUESTION: 2**A developer declared a class as follow.

```
public class wysiwyg { // Properties and methods including DML }
```

Which invocation of a class method will obey the organization-wide defaults and sharing settings for the running user in the Salesforce Organization?**A.** A user on an external system that has an API call into Salesforce that invokes a method in this class**B.** A Visualforce page with an Apex controller that invokes a method in this class**C.** A developer using the Developer Console that invokes a method in this class from the execute anonymous window**D.** An Apex Trigger that invokes a helper method in this class  
**Answer: C**

**NEW QUESTION: 3**Which two statements are true regarding container templates, container catalogs, standard catalogs, and advance catalogs services created in the Cisco Prime Service Catalog for Cisco UCS Director? (Choose two.)**A.** If these services are associated with a group in the Cisco UCS Director, users in the corresponding group in the Cisco Prime Service Catalogs can only order services that the group has access to.**B.** If the services are associated with All Groups in the Cisco UCS Director, all users in the Cisco Prime Service Catalog can order services.**C.** If these services are associated with a group in the Cisco UCS Director, users in all groups in the Cisco Prime Service Catalog can order services that the group has access to.**D.** If the services are associated with All Groups in the Cisco UCS Director, users in the corresponding group in the Cisco Prime Service Catalog can order the services that All Groups have access to.**Answer: A,D**

**NEW QUESTION: 4**HOTSPOTYou are reviewing the following code that saves uploaded images. For each of the following statements, select Yes if the statement is true. Otherwise, select No. Each correct selection is worth one point.Hot Area:**Answer:** Explanation:
