Free download pdf demo, For candidates [H20-682 V2.0 Dumps Free Download](#) who will attend an exam, some practice for it is necessary.

NEW QUESTION: 1

予期しないBPDUを受信したときに、どの機能がポートをerr-disabled状態にしますか？**A.** BPOUガード**B.** ルートガード**C.** BPDUフィルタリング**D.** ループガード**Answer: A**

NEW QUESTION: 2 Test Management You are working on a project to develop an authentication system for an e-commerce website. This system provides two features: Registration and authentication. Two different development teams develop these two features. There is a high likelihood that the delivery of the authentication feature to the test team will be three weeks later. To complete the registration the user must provide the following registration inputs: Name, surname, birthdate, fiscal code and he/she can select a username and a password. A registered user can be a special user or a normal user. To be identified as a special user, he/she must also provide, during the registration process, a voucher possibly received from the IT department. Access is granted only if a user is registered and the password is correct: In all other cases access is denied. If the registered user is a special user and the password is wrong, a special warning is shown on the system console. You are currently performing a quality risk analysis using FMEA. Based only on the given information, which of the following is NOT a product risk that could be identified during the quality risk analysis? Number of correct responses: 1K43 credits **A.** The late delivery of the authentication feature to the test team causes delays in the start of test execution and this could result in a shorter test period **B.** The authentication system denies access for a special user with a wrong password, but doesn't display a special warning on the system console **C.** The authentication system grants access to a normal user with a wrong password **D.** The authentication system grants access to a special user with a wrong password **Answer: A**

NEW QUESTION: 3 During a database audit, an IS auditor notes frequent problems due to the growing size of the order tables. Which of the following is the BEST recommendation in this

situation?**A.** Build more table indices.**B.** Migrate to a different database management system.**C.** Periodically delete completed orders.**D.** Develop an archiving approach.**Answer: D**
