Friendly service Our philosophy is "Quality is life, **C\_ARCIG\_2308 Valid Test Practice** customer is God." We warmly welcome every customer's questions about our SAP Certified Application Associate - Managed Gateway for Spend&Network study guide.

**NEW QUESTION: 1** Refer to the exhibit. C-router is to be used as a "router-on-a-stick" to route between the VLANs. All the interfaces have been properly configured and IP routing is operational. The hosts in the VLANs have been configured with the appropriate default gateway. What is true about this configuration?  
**A.** These commands need to be added to the configuration:  
C-router(config)# router ospf 1  
C-router(config-router)# network 172.19.0.0 0.0.3.255 area 0  
**B.** These commands need to be added to the configuration:  
C-router(config)# router rip  
C-router(config-router)# network 172.19.0.0  
**C.** These commands need to be added to the configuration:  
C-router(config)# router eigrp 123  
C-router(config-router)# network 172.19.0.0  
**D.** No further routing configuration is required.  
**Answer: D**  
**Explanation:** Since all the same router (C-router) is the default gateway for all three VLANs, all traffic destined to a different VLA will be sent to the C-router. The C-router will have knowledge of all three networks since they will appear as directly connected in the routing table. Since the C-router already knows how to get to all three networks, no routing protocols need to be configured.

**NEW QUESTION: 2** You want to support multiple tenants with duplicate IP addresses for your storage system. Which statement is correct in this scenario?  
**A.** You must create an additional IP space.  
**B.** You must create additional VLANs to use multiple tenants.  
**C.** You cannot support multiple tenants on your storage system.  
**D.** You must use different ports on your controller.  
**Answer: A**  
**Explanation:** IP spaces enable you to configure a single Data ONTAP cluster so that it can be accessed by clients from more than one administratively separate network domain, even if those clients are using the same IP address subnet range.  
**Reference:** Clustered Data ONTAP 8.3, Network Management Guide, page 32  
You were dispatched to install a cluster made up of FAS8060 and FAS8080 controllers. There are three FAS8060 controllers and three FAS8080 controllers.

**NEW QUESTION: 3** Welches ist der wichtigste Treiber für die effektive Kommunikation des Fortschritts der Umsetzung eines neuen Informationssicherheitsprogramms an wichtige Stakeholder?  
**A.** Dokumentation des Risikos, das sich auf die Erreichung der Programmziele auswirken könnte  
**B.** Entwerfen universeller Key Performance Indicators (KPIs) für das Programm  
**C.** Erleichterung der Forderung der Stakeholder nach programmbezogenen Technologiekonzepten  
**D.** Verständnis der Bedürfnisse der Stakeholder, die die Programmziele beeinflussen  
**Answer: D**
