NEW QUESTION: 1 Please wait while the virtual machine loads. Once loaded, you may proceed to the lab section. This may take a few minutes, and the wait time will not be deducted from your overall test time. When the Next button is available, click it to access the lab section. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design. Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task. Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided. Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab. You may now click next to proceed to the lab. You plan to create a new web app named WebApp8. You need to ensure that all the resources for WebApp8 run in the West US location. What should you do first? **NOTE:** To answer this question, sign in to the Azure portal and explore the Azure resource groups. **A.** Modify the Azure App Service plan of the home page **B.** Deploy Azure Traffic Manager **C.** Create a new Azure App Service plan **D.** Modify the homepage 11234827 Azure App Service **Answer: C** **Explanation:** Explanation In App Service, an app runs in an App Service plan. An App Service plan defines a set of compute resources for a web app to run. When you create an App Service plan in a certain region (for example, West Europe), a set of compute resources is created for that plan in that region.
