NEW QUESTION: 1What is the best way to prevent two users, with the same permissions, from modifying the same page at the same time? (Choose the best answer.)**A.** Use the Read Only while Editing functionality in the page properties of the Sidekick**B.** Use the Lock Page functionality in the page properties of the Sidekick**C.** Use different versions of the same page**D.** Programmatically modify Access Control Lists**Answer: B**

NEW QUESTION: 2Refer to the exhibit. You have determined that computer A cannot ping computer B. Which reason for the problem is most likely true?**A.** The computer B default gateway address is incorrect.**B.** The computer A subnet mask is incorrect.**C.** The computer A default gateway address is incorrect.**D.** The computer B subnet mask is incorrect.**Answer: C**
Explanation:Explanation/Reference:Explanation:

NEW QUESTION: 3Assume you would like to receive notification from the container as a stateless session bean transitions to and from the ready state. Which of the following life cycle back annotations would you use? (Choose one.)**A.** @PostConstruct, @PostDestroy, @Remove**B.** @PreConstruct, @PostDestroy**C.** @PostConstruct, @PostDestroy**D.** @PostConstruct, @PreDestroy, @Remove**E.** @PostConstruct, @PreDestroy**Answer: E**
Explanation: The Lifecycle of a Stateless Session Bean The EJB container typically creates and maintains a pool of stateless session beans, beginning the stateless session bean's lifecycle. The container performs any dependency injection and then invokes the method annotated @PostConstruct, if it exists. The bean is now ready to have its business methods invoked by a client. At the end of the lifecycle, the EJB container calls the method annotated @PreDestroy, if it exists. The bean's instance is then ready for garbage collection. Lifecycle of a Stateless Session Bean: Note: An enterprise bean goes through various stages during its lifetime, or lifecycle. Each type of enterprise bean (stateful session, stateless session, singleton session, or message-driven) has a different lifecycle.
