So many IT candidates are clear in their mind that getting [Exam C_THR85_2405 Score](#) HashiCorp Certified: Terraform Associate certification can add a bright point to the resume and have access to rich rewards and benefits.

You needn't to stay up for doing extra works.

NEW QUESTION: 1

新しいデータベースでのAzureCosmosDBアカウントの使用を評価しています。

提案されたアカウントは、次の展示に示すように構成されます。

ドロップダウンメニューを使用して、図に示されている情報に基づいて各ステートメントを完了する回答の選択肢を選択します。注：正しい選択はそれぞれ1ポイントの価値があります。**Answer:**

Explanation:ExplanationBox 1: vertices and edgesGremlin API is selected.You can use the Gremlin language to create graph entities (vertices and edges), modify properties within those entities, perform queries and traversals, and delete entities.Box 2: US EastThe (US) West US is selected as the primary location and geo- redundancy is enabled.The secondary location for West US is East US.Note: When a storage account is created, the customer chooses the primary location for their storage account.However, the secondary location for the storage account is fixed and customers do not have the ability to change this. The following table shows the current primary and secondary location pairings:Reference:

NEW QUESTION: 2MEMORANDUMTo: All Jubilee Products EmployeesFrom: Blair Borowski, Facilities ManagerDate: March 1, 2005Re: New Carpet**ATTENTION**A(1)This Saturday and Sunday, March 5 and 6, under your feet carpet company will be installing new carpets throughout the building. (2)All office areas being currently carpeted will get new carpeting. (3)All office areas that are not currently carpeted will also be carpeted.B(4)To prepare for the carpet installation, Under Your Feet have requested the following:1. (5)Remove ALL nonfurniture items from the carpet or floor in your work area.2. (6)ALL items except computers and telephones from the top of your furniture should be removed.(7)If for your office items you need boxes or storage space, please contact me at extension 425. (8)The new carpet will be dark blue.C(9)Your compliance is very important, I will circulate a reminder on Thursday and again on Friday mourning.D(10)Thank you in advance for your cooperation. (11)If you have any questions, please don't hesitate to contacting me.Sentences 4: To prepare for the carpet installation, Under Your Feet have requested the following:Which correction should be made to sentence 4?**A.** Change to prepare to preparing.**B.** No correction is necessary**C.** Change Your to

You're. **D.** Replace have with has. **E.** Delete the comma after installation. **Answer: D**
Explanation: Explanation/Reference: Explanation: The subject of the sentence, Under Your Feet [Company], is singular, so the verb must also be singular (has, not have). Choice a is incorrect because the infinitive form is to + verb base, not verb + -ing. Choice b is incorrect because the comma after installation is necessary; commas should follow introductory phrases. Choice d is incorrect because Your should remain possessive, not you're, which is a contraction of you and are. Choice e is incorrect because the error in subject-verb agreement must be corrected.

NEW QUESTION: 3 Which of the following is true about digital certificate? **A.** Electronic credential proving that the person the certificate was issued to is who they claim to be **B.** You can only get digital certificate from Verisign, RSA if you wish to prove the key belong to a specific user. **C.** It is the same as digital signature proving Integrity and Authenticity of the data **D.** Can't contain geography data such as country for example. **Answer: A**
Explanation: Digital certificate helps others verify that the public keys presented by users are genuine and valid. It is a form of Electronic credential proving that the person the certificate was issued to is who they claim to be. The certificate is used to identify the certificate holder when conducting electronic transactions. It is issued by a certification authority (CA). It contains the name of an organization or individual, the business address, a serial number, expiration dates, a copy of the certificateholder's public key (used for encrypting messages), and the digital signature of the certificate-issuing authority so that a recipient can verify that the certificate is real. Some digital certificates conform to a standard, X.509. Digital certificates can be kept in registries so that authenticating users can look up other users' public keys. Digital certificates are key to the PKI process. The digital certificate serves two roles. First, it ensures the integrity of the public key and makes sure that the key remains unchanged and in a valid state. Second, it validates that the public key is tied to the stated owner and that all associated information is true and correct. The information needed to accomplish these goals is added into the digital certificate. A Certificate Authority (CA) is an entity trusted by one or more users as an authority in a network that issues, revokes, and manages digital certificates. A Registration Authority (RA) performs certificate registration services on behalf of a CA. The RA, a single purpose server, is responsible for the accuracy of the information contained in a certificate request. The RA is also expected to perform user validation before issuing a certificate request. A Digital Certificate is not like same as a digital signature, they are two different things, a digital Signature is created by using your Private key to encrypt a message digest and a Digital Certificate is issued by a trusted third party who vouch for your identity. There are many other third parties which are providing Digital Certificates and not just Verisign, RSA. Reference(s) used for this question: Hernandez CISSP, Steven (2012-12-21).
