NEW QUESTION: 1 Which of the following statements reflect the 'Code of Ethics Canons' in the '(ISC)2 Code of Ethics'? Each correct answer represents a complete solution. Choose all that apply. **A.** Provide diligent and competent service to principals. **B.** Protect society, the commonwealth, and the infrastructure. **C.** Act honorably, honestly, justly, responsibly, and legally. **D.** Give guidance for resolving good versus good and bad versus bad dilemmas. **Answer: A,B,C** Explanation: The Code of Ethics Canons in (ISC)2 code of ethics are as follows: Protect society, the commonwealth, and the infrastructure. Act honorably, honestly, justly, responsibly, and legally. Provide diligent and competent service to principals. Advance and protect the profession.

NEW QUESTION: 2 SYN flood attack is a form of ? **A.** Man in the middle attack **B.** Denial of Service attack **C.** Spoofing attack **Answer: B** Explanation: A SYN flood is a form of denial-of-service attack in which an attacker sends a succession of SYN requests to a target's system in an attempt to consume enough server resources to make the system unresponsive to legitimate traffic. Source: https://en.wikipedia.org/wiki/SYN_flood

NEW QUESTION: 3 If a manufacturer has established a limit on the number of defects that are tolerable in the final assembly of its product, which of the following quality control procedures should be employed? **I.** Inspect completed goods for compliance with established tolerances. **II.** Review sales returns for defects not detected during the final inspection process. **III.** Compare materials and machinery specifications with original product designs. **IV.** Establish a quality circle that includes management and subordinates to discuss labor efficiency. **A.** III and IV only. **B.** I, III, and I. **C.** II and III only. **D.** I, II, and III. **Answer: D** Explanation: Quality control procedures may be categorized according to the nature of the costs incurred. An organization incurs appraisal costs to ensure product quality. These costs include the costs of inspection, testing, and statistical quality control programs. An organization also should investigate the causes of sales returns, which represent an external failure cost. Furthermore, the organization should

incur certain prevention costs, e.g., by reviewing equipment design and materials requirements.
