NEW QUESTION: 1The IT department has installed new wireless access points but discovers that the signal extends far into the parking lot. Which of the following actions should be taken to correct this?**A.** Lower the power for office coverage only**B.** Configure the access points so that MAC filtering is not used**C.** Implement WEP encryption on the access points**D.** Disable the SSID broadcasting**Answer: A**

NEW QUESTION: 2You administer a Microsoft SQL Server 2012 database named Contoso on a server named Server01. You need to be notified immediately when fatal errors occur on Server01. What should you create?**A.** A Server Audit Specification**B.** An Alert**C.** A Database Audit Specification**D.** An Extended Event session**E.** A SQL Profiler Trace**F.** A Resource Pool**G.** A Policy**Answer: B**
Explanation: Explanation/Reference: Explanation: SQL Server has alerts that get more important based on the severity of the alert. Anything of severity 16 or below tends to refer to the database and deals with issues that are tied to syntax errors, violations of foreign keys, etc. While those errors are typically important, they don't refer to anything with regards to overall health of the SQL Server. Alerts 17 through 25 do. Those are the ones your health checks are probably firing on. References:

NEW QUESTION: 3Earnings multipliers for series of stocks (such as the S&P 400) have been found to be**A.** less volatile than earnings for series of stocks.**B.** more volatile than the earnings for series of stocks.**C.** approximately as volatile as earnings for series of stocks.**D.** stable.**Answer: B**
Explanation: Explanation/Reference: Explanation: The standard deviation of annual changes of the earnings multiplier for the S&P 400 is 28.2, while that for the annual earnings for the S&P 400 is 18.3. To value stock series, one needs to estimate both the earnings multiplier and the earnings. Although some analysts have tended to ignore the earnings multiplier on the assumption that it is stable over time, its high measured variability makes it hard to ignore.

NEW QUESTION: 4A. Option AB. Option CC. Option BD. Option DAnswer: C
