The Send Email action sends email when the conditions on the workflow rule are met.* (B) Create Task. The Create Task action creates a task when the conditions on the workflow rule are met.* (C) Assign a Book. The Assign a Book action assigns a book to a record when the conditions on the workflow rule are met.* Create Integration Event. The Create Integration Event action sends an integration event to one or more integration queues when the conditions on the workflow rule are met and a change is detected in at least one of the fields that are tracked by the Create Integration Event action.* Update Field After Wait. The Update Field After Wait action updates a field on the record that triggered the workflow rule. The action is performed at the end of the wait period defined in one or more Wait actions that precede the Update Field After Wait action on the workflow rule.* Update Values. The Update Values action updates fields when a record is changed, without losing the information about the original change (that is, information about when the record was changed, by whom, and what data was changed).* Wait. The Wait action causes Oracle CRM On Demand to delay the execution of other (following) actions on a workflow rule until a period has passed, or a certain date and time have been reached.
