NEW QUESTION: 1This question consists of two statements: One is named Assertion and the other is named Reason. Both of these statements may be true: both may be false; or one may be true, while the other may be false. To answer this question, you must first evaluate whether each statement is true on its own. If both statements are true, then you must evaluate whether the Reason (the second statement) correctly explains the Assertion (the first statement). You will then select the answer from the list of answer choices that matches your evaluation of the two statements. Assertion: You can run the RENDOM command on the GIA-DC domain controller to rename the domain. Reason: The RENDOM command is installed as part of the Active Directory Domain Services role when you promote a server to the domain controller role. The command allows you to rename the domain. Evaluate the Assertion and Reason statements and choose the correct answer option. Both the Assertion and Reason are true. and the Reason is the correct explanation for the Assertion. Both the Assertion and Reason are true but the Reason is not the correct explanation for the Assertion. The Assertion is true, but the Reason is false. The Assertion is false, but the Reason is true. Both the Assertion and the Reason are false.
Answer: Explanation: A

NEW QUESTION: 2You want to clone PDB1 and PDB2 into the same CDB. Which statement is correct? **A.** You can clone only one PDB (either PDB1 or PDB2) into the same CDB. Cloning a PDB can use the source files copy method to the target PDB files. **C.** You cannot do this, because you can only clone PDBs into another CDB. **D.** Cloning a PDB can use the NOCOPY clause if the target PDB files use the source files. **Answer: B**

NEW QUESTION: 3DRAG DROP You have an Exchange Server 2016 organization. The organization contains two Mailbox servers. You have a database that is replicated to both servers. The database contains 500 mailboxes. You add new volumes to the Mailbox servers. You need to move all of the mailbox data to the new volumes. The solution must meet the following requirements: Ensure that multiple copies of the mailbox data are available at all times. Minimize downtime for the mailbox users. Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order. **Answer:** Explanation:
