Refund in case of failure, It is worth noticing that **AIF-C01 Pdf Version** some people who do not use professional anti-virus software will mistakenly report the virus.

NEW QUESTION: 1The user of Host1 wants to ping the DSL modem/router at 192.168.1.254. Based on the Host1 ARP table that is shown in the exhibit, what will Host1 do?
A. send unicast ICMP packets to the DSL modem/router
B. send a unicast ARP packet to the DSL modem/router
C. send a Layer 2 broadcast that is received by Host2, the switch, and the DSL modem/router
D. send Layer 3 broadcast packets to which the DSL modem/router responds
Answer: A
Explanation:When Host1 sends ICMP packets to the DSL modem/router for the first time, Host1 checks the mapping between the target IP address and the MAC with ARP cache and sends unicast ICMP packets. If Host1 cannot find the mapping between the target IP address and the MAC, Host1 sends broadcast packets to find the MAC mapping the target IP address. The ARP cache contains the MAC mapping the target IP address 192.168.1.254, so Host1 sends unicast ICMP packets to the DSL modem/router.
When Host1 sends ICMP packets to the DSL modem/router

NEW QUESTION: 2CORRECT TEXT A prescription for a buccal tablet would be labeled ____
Answer: Explanation:Place against the inside of the cheek

NEW QUESTION: 3Your network contains an Active Directory domain named fabrikam.com. You implement DirectAccess. You need to view the properties of the DirectAccess connection. Which connection properties should you view? To answer, select the appropriate connection properties in the answer area.
Answer: Explanation:

NEW QUESTION: 4

組織は50人のIAMユーザーを作成しました。組織は、各ユーザーがパスワードを変更できるが、アクセスキーは変更できないことを望んでいます。組織はこれをどのように達成できますか？
A. 組織は特別なパスワードポリシーを作成し、各ユーザーにアタッチする必要があります
B. デフォルトでは、各IAMユーザーはパスワードを変更できます
C. ルートアカウントの所有者は、パスワードポリシー画面のIAMコンソールからポリシーを設定できます
D. ルートアカウントの所有者は、各IAMユーザーに初回ログイン時にパスワードを強制的に変更させるCLIを使用する必要があります

Answer: C
Explanation:Explanation With AWS IAM, organizations can use the AWS Management Console to display, create, change or delete a password policy. As a part of managing the password policy, the user can enable all users to manage their own passwords. If the user has selected the option which allows the IAM users to modify their password, he does not need to set a separate policy for the users. This option in the AWS console allows changing only the password.
