NEW QUESTION: 1A. TileSquarePeekImageAndText01**B.** ToastImageAndText02**C.** TileSquareText03**D.** ToastText01**Answer: B****Explanation:**ToastImageAndText02 A large image, one string of bold text on the first line, one string of regular text wrapped across the second and third lines.

NEW QUESTION: 2A company is currently storing 3 PB of objects and files in an on-premises, NAS appliance that is reaching maximum capacity. The customer is interested in the cloud-scale economics that Scality RING offers, but is concerned about data availability during a migration to RING.Is this an appropriate response to the customer's concern?**Solution:**SGI DMF can migrate massive amounts of data from existing NAS to RING while providing seamless

data availability for users.**A. No****B. Yes****Answer: A**

NEW QUESTION: 3 A project has fallen behind schedule for no obvious reason, so the PM has gathered the team to brainstorm. Which of the following should the PM do NEXT?**A.** Review an Ishikawa diagram with the project team to determine possible causes and effects.**B.** Refer to the risk register to map the risks to issues and mitigation strategies.**C.** Brief the team on which tasks have fallen behind schedule and where the project has slack.**D.** Go over the meetings objectives and agenda.**E.** Review the issue log with the project team and identify potential risks.**Answer: C**

NEW QUESTION: 4 On May 1, Year 1, an entity issued, at 103 plus accrued interest, 500 of its 12%, US \$1,000 bonds. The bonds are dated January 1, Year 1, and mature on January 1, Year 6. Interest is payable semiannually on January 1 and July 1. The journal entry to record the issuance of the bonds and the receipt of the cash proceeds is **A.** Option A **B.** Option D **C.** Option B **D.** Option C **Answer: D** Explanation: The face amount of the 500 bonds is equal to US \$500,000 (500 x \$1,000). The cash proceeds excluding interest from the issuance of the bonds are US \$515,000 (500 x \$1,000 x 103%). The US \$15,000 premium is the difference between the cash issuance proceeds and the face amount of the bonds. Because the bonds were issued between interest payment dates, the issuer is also entitled to receive accrued interest for the 4 months between the prior interest date and the issuance date. The accrued interest is US \$20,000 [500 bonds x \$1,000 face value x 12% stated rate x 4/12]. The issuing entity will therefore receive US \$535,000 in cash (\$515,000 + \$20,000). The resulting journal entry includes a US \$535,000 debit to cash, a US \$500,000 credit to bonds payable, a US \$15,000 credit to premium, and a US \$20,000 credit to either interest payable or interest
