Answer: A

NEW QUESTION: 2After an assessment, auditors recommended that an application hosting company should contract with additional data providers for redundant high speed Internet connections.Which of the following is MOST likely the reason for this recommendation? (Select TWO).**A.** To eliminate a single point of failure**B.** To allow for business continuity if one provider goes out of business**C.** To allow for a hot site in case of disaster**D.** To allow load balancing for cloud support**E.** To improve intranet communication speeds**Answer: A,B**Explanation:A high-speed internet connection to a second data provider could be used to keep an up-to-date replicate of the main site. In case of problem on the first site, operation can quickly switch to the second site. This eliminates the single point of failure and allows the business to continue uninterrupted on the second site. Note: Recovery Time Objective The recovery time objective (RTO) is the maximum amount of time that a process or service is allowed to be down and the consequences still be considered acceptable. Beyond this time, the break in business continuity is considered to affect the business negatively. The RTO is agreed on during BIA creation.
