NEW QUESTION: 2 You are using the import Extended user information function to perform the background information data import. You select the 'import by re-loading all data with your new changes' option. What happens to the data that already exists? Please choose the correct answer.
Response: **A.** All records in the sections that you are importing remain. **B.** All records in the sections that you are importing are deleted. This affects only the employees in the file. **C.** All records in the sections that you are NOT importing are deleted. This affects ONLY the employee in the file. **D.** All records in the sections that you are importing are deleted. This affects all employees.
Answer: D

NEW QUESTION: 3 Keyboards and mice are members of which class of USB devices?
A. Human Interface Device Class **B.** Data Interface Device Class **C.** Communication Device Class **D.** Mass Storage Device Class
Answer: A

NEW QUESTION: 4 An information security organization should PRIMARILY:
A. ensure that the information security policies of the company are in line with global best practices and standards. **B.** be responsible for setting up and documenting the information security responsibilities of the information security team members. **C.** support the business objectives of the company by providing security-related support services. **D.** ensure that the information security expectations are conveyed to employees.
Answer: C
Explanation/Reference: Explanation: The information security organization is responsible for

options B and D within an organization, but they are not its primary mission. Reviewing and adopting appropriate standards (option C) is a requirement. The primary objective of an information security organization is to ensure that security supports the overall business objectives of the company.
