NEW QUESTION: 1Your database is up and running and one of your three control files is accidentally erased. You start RMAN and run the following command:RESTORE CONTROLFILE FROM AUTOBACKUP;Which of the following statements is true? (Choose all that apply.)**A.** The command fails because the database is running.**B.** This is not the correct way to address this problem.**C.** This is the correct way to address this problem.**D.** The command restores all the control files.**E.** The command restores only the missing control file.**Answer: A,B**Explanation: During the database running, the control files are locked by the database instance, you must shutdown the database and startup at NOMOUNT status to restore a missing control file. And you have to open database with RESETLOGS option, due to control file change.

NEW QUESTION: 2A client has told you that they see their email marketing is not effective anymore for generating sales-readyprospects. What can you suggest they do?**A.** Use engagement studio to automate email sending**B.** Send emails more frequently**C.** Use other lead generation such as social**D.** Assign prospects to sales earlier**Answer: C**

NEW QUESTION: 3HOTSPOT**Answer:** Explanation:Explanation:Scenario: A user named User1 reports that email messages are being sent from her mailbox without her consent.For mailboxes in your organization that you wish to enable audit logging on you can do so using the Set-Mailbox cmdlet.* The AuditDelegate parameter specifies the operations to log for delegate users. Valid values include:None Update Move MoveToDeletedItems SoftDelete HardDelete FolderBind SendAsSendOnBehalf* Send AsThis permission allows delegates to use the mailbox to send messages. After this permission is assigned to a delegate, any message that the delegate sends from the mailbox will appear to have been sent by the mailbox owner. Incorrect:* Send on BehalfThis permission also allows a delegate to use the mailbox to send messages. After this permission is assigned to a delegate, the From address in any message sent by the delegate indicates that the message was sent by the delegate on behalf of the mailbox owner.* The AuditEnabled parameter specifies whether to enable or disable mailbox audit logging.If auditing is enabled, actions specified in the AuditAdmin, AuditDelegate, and AuditOwner parameters are logged. Valid values include:\$trueMailbox audit logging is enabled.\$falseMailbox audit logging is disabled.The default value is \$false.
