The questions and answers format of the guide is one Exam MuleSoft-Integration-Architect-I Introduction of the most fabulous features that make your learning easier and pass the exam without any hassle.

NEW QUESTION: 1Your customer has deployed an employee portal that you have protected with Oracle Access Manager (OAM). The customer now wants a new portlet added to the home page to display the employee's salary details. The portlet will obtain the information through a call an internally exposed web service. Your customer has defined the following security requirements for the new portlet:1. Employees must be authenticated through risk-based authentication before they can access the portal.2. The web service must be secured from unauthenticated calls.3. All security logic for the web service must be external to the web service.4. The web service should return salary details only if the user's authentication risk score is below 500.Which four steps must you perform to meet the requirements for the new portlet?**A.** Enable Identity Assertion propagation in the OAM policy.**B.** Configure an OWSM policy to protect the web service, consume the security token, and evaluate the risk score.**C.** Configure OWSM to call OAAM to obtain the risk score.**D.** Configure Oracle Web Services Manager (OWSM) on the portal container to generate a security token.**E.** Deploy Oracle Adaptive Access Manager (OAAM) and integrate it with OAM, settings OAAM as the authentication scheme.**F.** Configure a cookie response in OAM to set the risk score into a cookie called HTTP_RISK_SCORE.**Answer: A,D,E,F**

NEW QUESTION: 2An IS auditor learns an organization does not perform full disaster recovery (DR) testing because past tests have confirmed that all critical systems can individually be recovered within four hours, in line with business requirements. Which of the following should be the auditor's GREATEST concern?**A.** The individual tests did not consider non-critical systems**B.** The tests did not take into account the DR dependencies between different systems**C.** Critical systems should be recoverable in less than four hours**D.** Performing many individual tests required more effort in total than a full DR test**Answer: B**

NEW QUESTION: 3A company reported pretax financial statement income of \$420,000 for Year 1. Taxable income for Year 1 was \$300,000 due to a temporary timing difference in depreciation expenses.
