NEW QUESTION: 1You are a system administrator at a company. You are configuring Azure DevTest Labs for a Development environment. You sign in to Azure portal and view the Cost Management blade.You observe that costs are trending upward for the environment and will soon reach the allocated budget.You need to set policies and schedules that will impose limits on virtual machines (VMs) in the environment to control costs.Which three settings should you configure? Each correct answer presents part of the solution.NOTE: Each correct selection is worth one point.**A.** Disable Azure Key Vault.**B.** Set auto-start to the beginning of the business day.**C.** Set allowed VM sizes to the minimum necessary for the Development environment.**D.** Set auto-shutdown to the end of the business day.**E.** Set VMs per user.**Answer: C,D,E**

NEW QUESTION: 2.Which service component within the prepare phase includes a set of activities and tasks to help plan an account for a customer opportunity?**A.** Technology Strategy Development**B.** Account Qualification**C.** Account Planning**D.** Business Requirements Development**E.** High-Level Design Development**Answer: C**

NEW QUESTION: 3The security administrator has installed a new firewall which implements an implicit DENY policy by default.INSTRUCTIONS:Click on the firewall and configure it to allow ONLY the following communication.1. The Accounting workstation can ONLY access the web server on the public network over the default HTTPS port. The accounting workstation should not access other networks.2. The HR workstation should be restricted to communicate with the Financial server ONLY, over the default SCP port3. The Admin workstation should ONLY be able to access the servers on the secure network over the default TFTP port.Instructions: The firewall will process the rules in a top-down manner in order as a first match The port number must be typed in and only one port number can be entered per rule Type ANY for all ports. The original firewall configuration can be reset at any time by pressing the reset button. Once you have met the simulation requirements, click save and then Done to submit.Hot Area:**Answer:** Explanation:Explanation:Section: Network SecurityImplicit deny is the default security stance that says if you aren't specifically granted access or privileges for a resource, you're denied access by default.Rule #1 allows the Accounting workstation to ONLY access the web server on the public network over the default HTTPS port, which is TCP port 443.Rule #2 allows the HR workstation to ONLY communicate with the Financial server over the default SCP port, which is TCP Port 22 Rule #3 & Rule #4 allow the Admin workstation to ONLY access the Financial and Purchasing servers located on the secure network over the default TFTP port, which is Port 69.
