Time is nothing, Our HPE7-A05 study materials have worked hard to provide better user experience.

NEW QUESTION: 1You are the risk professional in Bluewell Inc. A risk is identified and enterprise wants to quickly implement control by applying technical solution that deviates from the company's policies. What you should do?**A.** Recommend revision of the current policy **B.** Recommend a risk assessment and subsequent implementation only if residual risk is accepted **C.** Conduct a risk assessment and allow or disallow based on the outcome **D.** Recommend against implementation because it violates the company's policies **Answer: B**
Explanation: Explanation/Reference: Explanation: If it is necessary to quickly implement control by applying technical solution that deviates from the company's policies, then risk assessment should be conducted to clarify the risk. It is up to the management to accept the risk or to mitigate it. Incorrect Answers: A: As in this case it is important to mitigate the risk, hence risk professional should once recommend a risk assessment. Though the decision for the conduction of risk assessment in case of violation of company's policy, is taken by management. B: The recommendation to revise the current policy should not be triggered by a single request. D: Risk professional can only recommend the risk assessment if the company's

policies is violating, but it can only be conducted when the management allows.

NEW QUESTION: 2Your company has 5,000 Windows 10 devices. All the devices are protected by using Windows Defender Advanced Threat Protection (ATP). You need to view which Windows Defender ATP alert events have a high severity and occurred during the last seven days. What should you use in Windows Defender ATP? **A.** Threat analytics **B.** Advanced hunting **C.** the threat intelligence API **D.** Automated investigations **Answer: D** Explanation:

Explanation/Reference: References:
