NEW QUESTION: 4 **A.** Option C **B.** Option D **C.** Option A **D.** Option B **Answer: C** Explanation: AppLocker, and its applications control policies, relies upon the Application Identity Service being active. Note: When you install Windows 7, the startup type of the Application Identity Service is set to Manual. When testing AppLocker, you should keep the startup type as Manual in case you configure rules incorrectly. In that event, you can just reboot the computer and the AppLocker rules will no longer be in effect. Only when you are sure that your policies are applied correctly should you set the startup type of the Application Identity Service to Automatic.
