Prepare your PCCET certification with our Estruturit PCCET free exam braindumps and pass the PCCET certification as quicker as u want to.

NEW QUESTION: 1What components are used to identify access management in Pivotal Cloud Foundry?
A. Application security groups and firewall
B. Token and SSOC
C. Events logging and monitoring
D. Releases and stem cells
Answer: B

NEW QUESTION: 2 1년과 동일한 순이익을 얻으려면 2년차에 가장 가까운 달러의 판매량은 어느 정도입니까?
A. US \$ 10,374,000
B. US \$ 8,736,000
C. US \$ 6,938,031
D. US \$ 9,576,000
Answer: D
Explanation: To earn the same net income in Year 2 as in Year 1, the contribution margin must equal the sum of the Year 1 pretax operating income and the Year 2 fixed costs. The pretax operating income is calculated as US \$3,429,360 (\$9,000,000 - \$4,050,000 variable costs - \$1,520,640 fixed costs). Fixed costs in Year 2 will be the same as in Year 1 except for an increase of US \$29,520 in fixed selling expenses, a total of US \$1,550,160 (\$1,520,640 as previously calculated + \$29,520). The desired Year 2 sales volume must equal the Year 2 contribution margin of US \$4,979,520 (\$3,429,360 desired pretax operating income + \$1,550,160 fixed costs in Year 2) divided by the contribution margin ratio (CMR). The CMR may be determined from the unit price constant at US \$9,000,000 ÷ 150,000 units = US \$60 per unit and unit variable cost data. Unit direct materials cost in Year 2 will increase by 10% to US \$13.20 [(\$1.800.000 ÷ 150,000 units)]. Unit direct labor cost in Year 2 is given as US \$5.40. Unit variable overhead cost is constant at US \$7.20 (\$1,080,000 ÷ 150,000 units). Unit variable selling expense is constant at US \$3.00 (\$450,000 ÷ 150,000 units). Thus, total unit variable cost is US \$28.80 (\$13.20 + \$5.40 + \$7.20 + \$3.00), and the UCM is US \$31.20 (\$60 unit selling price - \$28.80). The CMR is therefore US \$0.52 (\$31.20 ÷ \$60.00), and the desired Year 2 sales volume is US \$9,576,111 [(\$4,979,520 ÷ \$0.52)]. Data regarding Year 1 operations for an enterprise that had no beginning or ending inventory. The enterprise estimates that next year direct materials costs will increase by 10% and direct labor costs will increase by US \$0.60 per unit to US \$5.40 per unit. In addition, fixed selling expenses will increase by US \$29,520. All other costs will be incurred at the same rates or amounts as the current year.

NEW QUESTION: 3 Every SAP Cloud Platform Integration tenant has at least one tenant management node and one runtime node. Which of the following tasks does the tenant management node perform? Note : There are 2 correct answers to this question.
A. It processes messages that are exchanged
B. It reads data from the database for monitoring
C. It interacts with data storage
D. It starts and stops runtime nodes
Answer: B,D
