Role groups are assigned one or more management roles that contain the permissions required to perform a given set of tasks.The members of a role group are granted access to the management roles assigned to the role group. Administrators who are members of the Delegated Setup role group can deploy servers running Exchange 2013 that have been previously provisioned by a member of the Organization Management role group. Members of the Delegated Setup role group can only deploy Exchange 2013 servers. They can't manage the server after it's been deployed. To manage a server after it's been deployed, a user must be a member of the Server Management role group.
