NEW QUESTION: 1Company Background Corporate InformationGrooveShow Company is a large manufacturing company which produces and sells furnitures. There are three departments in the company. There are 90 employees in the Sales department, 65 employees in the Production department and 15 employees in the administrative department.Physical LocationsThe head office of GrooveShow resides in Paris. There are 12 stores and 3 factories that are also in France.Existing Environment Existing Licensing SolutionGrooveShow Company purchases all Microsoft Office license, Windows Server licenses, and Windows Server CALs through different Open License agreements. All Windows operating system licenses are OEM. At present, no software is covered by Software Assurance.Existing IT EnvironmentThere are 25 desktops and 85 laptops in the company network. The employees in the Sales department use the laptops. All desktops and laptops have Windows XP Professional and Office Professional installed. There is a server in the head office. The server runs Windows Server 2003 and Exchange Server 2003. Your company has configured each factory with a server which runs Windows Server 2003.Business Requirements Planned ChangesGrooveShow Company intends to deploy a Web Portal solution to allow for data collaboration, provide Windows Mobile smartphones for all sales staff so that they can access e-mail remotely, migrate to Window Vista in a minimum time.Problem StatementsThe present purchasing process is considered too complicated. GrooveShow Company is concerned about license compliance.Business Goals GrooveShow Company aims to achieve the following business goals: Keep perpetual use rights for all products purchased Improve control of the licensing purchase process Make sure that GrooveShow has access to the latest Microsoft software Make sure that the sales staff is able to run Office on their home computers Cut down the costs of licensing and deploying software to the least Cut down the costs of managing computers to the least Cut down the initial licensing costs of Windows Vista, Windows Mobile, and the Web portal to the leastQuestionThe GrooveShow Company asks you to recommend the licensing strategy, the strategy must allow the company to meet its business goals. Of the following options, which type of server licensing should you recommend?**A.** You should recommend User CAL**B.** You should recommend External Connector**C.** You should recommend Device CAL**D.** You should recommend Per Processor**Answer: A**Explanation:Explanation/Reference:There are 90 employees in the Sales department, 65 employees in the Production department and 15 employees in the administrative department!

NEW QUESTION: 2You support Windows 10 Enterprise computers.Your company has started testing Application Virtualization (App-V) applications on several laptops. You discover that the App-V applications are available to users even when the laptops are offline.You need to ensure that the App-V applications are available to users only when they are connected to the company network.What should you do?**A.** Reset the App-V client FileSystem cache.**B.** Configure

mandatory profiles for laptop users.**C.** Change user permissions to the App-V applications.**D.** Disable the Disconnected operation mode.**Answer: D**Explanation:ExplanationDisconnected operation mode is enabled by default and allows App-V applications to be available to users even when the laptops are offline. We need to disable Disconnected operation mode to prevent offline access.The disconnected operation mode settings-accessible by right-clicking the Application Virtualization node, selecting Properties, and clicking the Connectivity tab-enables the Application Virtualization Desktop Client or Client for Remote Desktop Services (formerly Terminal Services) to run applications that are stored in the file system cache of the client when the client is unable to connect to the Application Virtualization Management Server.
