NEW QUESTION: 1You have a Microsoft Azure Active Directory (Azure AD) tenant named contoso.com that includes a user named User1.You enable multi-factor authentication for contoso.com and configure the following two fraud alert settings:* Set Allow users to submit fraud alerts: On* Automatically block users who report fraud: OnYou need to instruct the users in your organization to use the fraud reporting features correctly.What should you tell the users to do? To answer, select the appropriate options in the answer area.NOTE: Each correct selection is worth one point.**Answer:** Explanation:ExplanationCode to report fraud during initial greeting: When users receive a phone call to perform two-step verification, they normally press # to confirm their sign-in. To report fraud, the user enters a code before pressing #. This code is 0 by default, but you can customize it.Block user when fraud is reported: If a user reports fraud, their account is blocked for 90 days or until an administrator unblocks their account. An administrator can review sign-ins by using the sign-in report, and take appropriate action to prevent future fraud. An administrator can then unblock the user's account.
