NEW QUESTION: 1An administrator is upgrading the switches in the server room to support 10Gbps of throughput. The switch will need to take advantage of the existing CAT6a lines that are run to each server. Which of the following Ethernet standards should be used?
A. 10GBaseT
B. 10GBaseFX
C. 10GBaseSRD
D. 10GBaseSWE
E. 10GBaseER
Answer: A
Explanation:
Explanation/Reference: https://en.wikipedia.org/wiki/10_Gigabit_Ethernet#Standards

NEW QUESTION: 2Senior management commitment and support for information security can BEST be enhanced through:
A. a formal security policy sponsored by the chief executive officer (CEO).
B. periodic review of alignment with business management goals.
C. regular security awareness training for employees.
D. senior management signoff on the information security strategy.
Answer: B
Explanation:
Explanation/Reference: Ensuring that security activities continue to be aligned and support business goals is critical to obtaining their support. Although having the chief executive officer (CEO) signoff on the security policy and senior management signoff on the security strategy makes for good visibility and demonstrates good tone at the top, it is a one-time discrete event that may be quickly forgotten by senior management. Security awareness training for employees will not have as much effect on senior management commitment.

NEW QUESTION: 3You develop an IoT solution by using Node.js. The solution is ready to deploy to the production environment. You must implement the device twin capabilities of Azure IoT Hub. You must register a sensor named Sensor00. The IoT Hub name is Hub01. You need to register the endpoint with ContosoHub01l so that you can configure them from your solution. Which four commands should you use to develop the solution? To answer, move the appropriate commands from the list of commands to the answer area and arrange the correct order.
Answer: Explanation:
