NEW QUESTION: 1 Click the Exhibit button at the right. Your customer receives errors that a SyncMirror plex failed on their 4-node Fabric MetroCluster system. You verify that the other plexes are online and notice that no errors have occurred within the past year. Referring to the exhibit, which troubleshooting step would you perform in this scenario? **A.** Review the fabric switches, and ATTO bridges for errors. **B.** Review all SAS connections. **C.** Review if a site switchover has occurred. **D.** Review that all Inter-Switch Links (ISL) are online. **Answer: A**

NEW QUESTION: 2 You are a professional level SQL Server 2005 database administrator in an international corporation named Wiikigo. You are experienced in implementing high-availability solutions, monitoring the database server, and design deployment. In the company, your major job is the deployment, maintenance and support of Microsoft SQL Server 2005. You work as the database administrator for your company. The company uses a SQL Server 2005 computer. Reporting Services are run by this computer. The server runs reports which include only data from the previous days sales. When reports are run during business hours, you notice that an OLTP database application runs slowly and that reports sometimes time out. Since you are the technical support, you have to resolve the problem and prevent it from recurring. So what action should you perform to achieve the goal? **A.** In order to achieve the goal, the size of the ReportServerTempDB database should be increased. **B.** In order to achieve the goal, the report definitions should be stored on a separate server. **C.** In order to achieve the goal, the reports should be configured to run under the Snapshot isolation level. **D.** In order to achieve the goal, the reports should be configured to use report snapshots. The report snapshots should be scheduled to run after business hours. **Answer: D**

NEW QUESTION: 3 Welche Aufgabe nehmen Sie vor, um externe Prozessschritte in der prozessorientierten Speichersteuerung zu erstellen? Bitte wählen Sie die richtige Antwort. **A.** Externer Prozessschritt zu einer Verpackungsspezifikation **B.** Externer Prozessschritt zu einem Speichertyp **C.** Externer Prozessschritt zu einem Arbeitsplatz **D.** Externer Prozessschritt 2 und SAP-interner Prozessschritt **Answer: D**
