At the same time, if you have any question, we can be sure that your question [C_TS462_2023](#) will be answered by our professional personal in a short time, This startling exam software is far more operational than real-life exam .

2024 100% Free C_TS462_2023 -High-quality 100% Free Test Dumps Free | C_TS462_2023 Free Updates

Secondly, our C_TS462_2023 study materials provide 3 versions and multiple functions to make the learners have no learning obstacles, We can make promise that you will harvest enough knowledge and happiness from our C_TS462_2023 test engine.

More choices, The on sale C_TS462_2023 exam cram is the latest research and development

result that we aim at the characters of the latest real test questions, The trick is also not to study hard, it's to study smart.

Each year there are many people pass the exam with the help of C_TS462_2023 online test engine training, If the materials updated, we will automatically send the latest to your mailbox.

First of all, our training material is compiled and checked by our professional [72301X Free Updates](#) experts, We firmly believe that you cannot be an exception, Here are some outstanding properties which can benefit all of you.

NEW QUESTION: 1An organization has hosted an application on the EC2 instances. There will be multiple users connecting to the instance for setup and configuration of application. The organization is planning to implement certain security best practices. Which of the below mentioned pointers will not help the organization achieve better security arrangement?**A.** Create a procedure to revoke the access rights of the individual user when they are not required to connect to EC2 instance anymore for the purpose of application configuration.**B.** Allow only IAM users to connect with the EC2 instances with their own secret access key.**C.** Disable the password based login for all the users. All the users should use their own keys to connect with the instance securely.**D.** Apply the latest patch of OS and always keep it updated.**Answer: B**
Explanation:Since AWS is a public cloud any application hosted on EC2 is prone to hacker attacks. It becomes extremely important for a user to setup a proper security mechanism on the EC2 instances. A few of the security measures are listed below:Always keep the OS updated with the latest patchAlways create separate users with in OS if they need to connect with the EC2 instances, create their keys and disable their password Create a procedure using which the admin can revoke the access of the user when the business work on the EC2 instance is completed Lock down unnecessary ports Audit any proprietary applications that the user may be running on the EC2 instance Provide temporary escalated privileges, such as sudo for users who need to perform occasional privileged tasks The IAM is useful when users are required to work with AWS resources and actions, such as launching an instance. It is not useful to connect (RDP / SSH) with an instance.Reference: <http://aws.amazon.com/articles/1233/>

NEW QUESTION: 2Which component of Cisco network security is updated after an attack to help prevent threats before they encounter the network again?**A.** Cisco Web Security Appliance **B.** Sourcefire Next-Generation Intrusion Prevention System**C.** Cisco Security Intelligence Operations**D.** Cisco site-to-site VPN**E.** Cisco Identity and Access Control**F.** Cisco ASA Next-Generation Firewall**G.** Cisco Email Security**Answer: C**

NEW QUESTION: 3What are three ways for an administrator to create users in Cisco Unity Connection? (Choose three.)**A.** import from LDAP**B.** Use the Bulk Administration Tool**C.** Use manual creation**D.** Import from a Microsoft Word document**E.** Import from a Microsoft Outlook contacts list **G** import from LDAP**F.** Import from an Adobe PDF document**G.** Import from Cisco Unified Communications Manager Express**Answer: A,B,G**
