**NEW QUESTION: 1**You have an Azure subscription that contains 10 virtual machines. You need to ensure that you receive an email message when any virtual machines are powered off, restarted, or deallocated. What is the minimum number of rules and action groups that you require?  
**A.** one rule and one action group  
**B.** one rule and three action groups  
**C.** three rules and one action group  
**D.** three rules and three action groups  
**Answer: C**  
**Explanation:** An action group is a collection of notification preferences defined by the user. Azure Monitor and Service Health alerts are configured to use a specific action group when the alert is triggered. Various alerts may use the same action group or different action groups depending on the user's requirements.
