E. Context belongs to a default class if not assigned to any other class.
Answer: C,E

NEW QUESTION: 2 You have a System Center 2012 R2 Configuration Manager Service Pack 1 (SP1) deployment that contains 8,000 client computers. When a custom application named App1.exe is installed on a computer, a registry value of App1=TRUE is added to the registry. App1 is installed on approximately half of the computers. You need to recommend a solution for creating a collection named Collection1 that contains only computers on which App1.exe is installed. The solution must minimize administrative effort. What should you include in the recommendation?
A. a collection that has a direct membership rule
B. the custom client device settings
C. a software category
D. a configuration item
Answer: A
Explanation:
Explanation/Reference: Explanation: Membership rule of the direct rule type let you choose the users or computers that you want to add as members to a collection. This rule gives you direct control over which resources are members of the collection. This membership does not change unless a resource is removed from Configuration Manager. Configuration Manager must have discovered the resources or you must have imported the resources before you can add them to a direct rule collection. Direct rule collections have a higher administrative overhead than query rule collections because you must make changes to this collection type manually.

NEW QUESTION: 3 Refer to the exhibit. Which two commands were used to create port channel 10? (Choose two)
A. Option B **B.** Option C **C.** Option E **D.** Option DE. Option A **Answer: B,E**
