NEW QUESTION: 1 Which of the following server roles synchronizes time throughout the network?
A. SMTP **B.** DHCP **C.** DNS **D.** NTP
Answer: D

NEW QUESTION: 2 A screen contains four buttons, Find, Save, Close and New. When the buttons are spied, the attributes are identical except for the Window Text attribute. The values for the Windows Text attribute are Find' for the Find button. 'Save' for the Save button, Close' for the Close button and New' for the New Button. The Dynamic Button element has been spied and has the following attributes set: What additional configuration is required to ensure the Close button is selected by the Navigate stage?
A. It is not possible to select the Close button using the Dynamic Button element because the value is set to 'Find in the Application Modeller
B. The Params button must be selected and the parameter configured to override the Window Text attribute value to 'Close'
C. A new element is required with the Window Text value set to "Close and the Match Type set to equal Reason: When passing the values in the Parameter the parameter should be configured with respect to the window text and pass as the value "close" as other attributes are identical we only have window text to make our fingerprint unique.
D. Set the Mouse Button value to Close'
Answer: B

NEW QUESTION: 3 **A.** Option A **B.** Option B **C.** Option C **D.** Option D
Answer: C
Explanation: Subject Alternative Names let you protect multiple host names with a single SSL certificate. Subject Alternative Names allow you to specify a list of host names to be protected by a single SSL certificate. When you order the certificate, you will specify one fully qualified domain name in the common name field. You can then add other names in the Subject Alternative Names field.

NEW QUESTION: 4
