**NEW QUESTION: 1**You want to track changes to certain Human Capital Management (HCM) records, for example, changes to employment and assignment records. You want to create your own actions and associate them with the predefined action types. Identity two correct statements regarding actions.**A.** Actions can be launched from the organization chart page and are controlled by data security.**B.** Actions are not a mandatory work structure.**C.** User defined actions can be created and linked to predefined action types.**D.** Only one action can be associated with action type.**E.** Actions should always have an action reason associated.

**Answer: A,C**Explanation:A: Action Type Action type identifies the type of business process associated with the action and determines what happens when you select an action. An action type is associated with one or more predefined actions. You can create your own actions and associate them with the predefined action types. For example, the Hire an Employee action type is associated with the Hire action. You could create an action Hire Part-Time and associate it with the Hire an Employee action type. Your action appears in the Action list of values on the Hire an Employee page. To hire a part-time employee, you could select the Hire Part-Time action instead of the predefined Hire action.

**NEW QUESTION: 2**Which two criteria must be met to support the ICMP echo IP SLA? (Choose two.)**A.** The source device must be a Cisco device, but the destination device can be from any vendor.**B.** A default gateway must be configured for the source and destination devices.**C.** The source device must be running Layer 2 services.**D.** The destination device must supportWhich command should you enter to configure a device as an NTP server?**E.** The source and destination devices must be Cisco devices.**Answer: D,E**

**NEW QUESTION: 3**After upgrading to DOT 8.0 7-mode, you can convert existing 32-bit aggregates into 64-bit aggregates.**A.** True**B.** False**Answer: B**
