**NEW QUESTION: 1** Lower-level MCU can also have how many higher MCU at the same time? **A. 0 B. 1 C. 2 D. 3** **Answer: B**

**NEW QUESTION: 2** Peter wants to enhance the view controls used in his application so that they can display rich content from the underlying document collection. He wants to do this in an efficient manner as the application has thousands of documents and is accessed by hundreds of concurrent users. Which of the following approaches should John take to add this enhancement to his application most efficiently? **A.** Add an action to each column that will retrieve the rich text content from the underlying document when clicked, assign it to a computed field with content type set to HTML, and then display that field. **B.** Nothing - XPages view controls cannot display rich content. **C.** Modify the Domino view to include the rich text field and add a new column to his view controls that automatically binds to this field. **D.** Add a computed column to the view control that opens each document, set the column content type to HTML, and bind the rich text content from each document using JavaScript code. **Answer: A**

**NEW QUESTION: 3** You just finished upgrading a cluster to ONTAP 9.1 and would like to enable NetApp Volume Encryption (NVE) on an existing volume. You do not have NetApp Storage Encryption (NSE) drives installed. Which three steps would you take to accomplish this task? (Choose three.) **A.** Perform volume move operation using the -encrypt-destination true parameter. **B.** Install the NVE license. **C.** Execute the key manager setup wizard. **D.** Replace drives with NSE drives. **E.** Modify the volume options with the -encrypt true parameter. **Answer: A, B, C**  
Explanation: You must install the NVE license and enable onboard key management before you can enable volume encryption. You can enable encryption on a new volume or on an existing volume. You can use the volume move start command to enable encryption on an existing volume. You can use the same aggregate or a different aggregate.
