D-PSC-MN-01 PDF version is printable, and you can take some notes on it and can practice them anytime, When you are with the help of our positive company and Dell PowerScale Maintenance Exam valid answers, every obstacle will be solved by you smoothly.

### **Valid D-PSC-MN-01 New Test Pdf | D-PSC-MN-01 100% Free New Exam Simulator**

You will also be able to get discounts for D-PSC-MN-01 on complete packages, After you purchasing our D-PSC-MN-01 certification training questions and dumps we will send you by email in a minute.

You can get them within 15 minutes without waiting, They can satisfy your knowledge-thirsty [Dell PowerScale Maintenance Exam](#) minds, If you have any question about Dell PowerScale Maintenance Exam test questions and dumps in use, you can email us, we will reply and solve with you soon.

Every day they are on duty to check for updates of D-PSC-MN-01 Exam Answers study materials for providing timely application, If our D-PSC-MN-01 test dumps do not help you pass exam paper, we shall refund your money in full.

To increase people's knowledge and understanding of this D-PSC-MN-01 exam, so as to improve and direct your practice, our experts made the D-PSC-MN-01 study questions diligently and assiduously all these years.

So our D-PSC-MN-01 study materials can be called perfect in all aspects.

**NEW QUESTION: 1**Your network contains an Active Directory domain named contoso.com. The domain contains three member servers. The servers are configured as shown in the following table. All client computers run Windows 8. All client computers receive updates from Server2. On Servers, you add a shared printer named Printer1. Printer1 uses a Type 4 driver that is not included in the Windows 8 installation media. You need to ensure that when users connect to the printer for the first time, the printer driver is installed automatically on their client computer. What should you do?  
**A.** From the Windows Deployment Services console on Server1, add the driver package for Printer1.  
**B.** From the Print Management console on Server3, add additional drivers for Printer1.  
**C.** From the Update Services console on Server2, import and approve updates.  
**D.** From Windows PowerShell on Server3, run the Add-PrinterDriver cmdlet.

**Answer: B**

**NEW QUESTION: 2**Which Cisco Nexus feature is best managed with DCNM-SAN?  
**A.** AA  
**B.** VSSC. virtual switches  
**D.** domain parameters  
**Answer: D**  
**Explanation:**The Fibre Channel domain (fcdomain) feature performs principal switch selection, domain ID distribution, FC ID allocation, and fabric reconfiguration functions as described in the FC-SW-2 standards. The domains are configured on a per VSAN basis. If you do not configure a domain ID, the local switch uses a random ID. This section describes each fcdomain phase:  
\*Principal switch selection - This phase guarantees the selection of a unique principal switch across the fabric.  
\*Domain ID distribution - This phase guarantees each switch in the fabric obtains a unique domain ID.  
\*FC ID allocation - This phase guarantees a unique FC ID assignment to each device attached to the corresponding switch in the fabric.  
\*Fabric reconfiguration - This phase guarantees a resynchronization of all switches in the fabric to ensure they simultaneously restart a new principal switch selection phase.
