**NEW QUESTION: 1**Alpha Corp., and have recently returned from a training course on Check Point's new advanced R80 management platform. You are presenting an in-house R80 Management to the other administrators in Alpha Corp. How will you describe the new "Publish" button in R80 Management Console?  
**A.** The Publish button makes any changes an administrator has made in their management session visible to the new Unified Policy session and saves it to the Database.  
**B.** The Publish button takes any changes an administrator has made in their management session and publishes a copy to the Check Point Cloud of R80 and but does not save it to the R80.  
**C.** The Publish button takes any changes an administrator has made in their management session, publishes a copy to the Check Point of R80, and then saves it to the R80 database.  
**D.** The Publish button makes any changes an administrator has made in their management session visible to all other administrator sessions and saves it to the Database.  
**Answer: D**  
**Explanation:** To make your changes available to other administrators, and to save the database before installing a policy, you must publish the session. When you publish a session, a new database version is created.
