Most computer fraud is caused by insiders or disgruntled employees. These people, as employees, are trusted to perform their duties honestly and not take advantage of the trust placed in them. The following answers are incorrect: They have had previous contact with law enforcement. Is incorrect because most often it is a person that holds a position of trust and this answer implies they have a criminal background. This type of individual is typically not in a position of trust within an organization. They conspire with others. Is incorrect because they typically work alone, often as a form of retribution over a perceived injustice done to them. They deviate from the accepted norms of society. Is incorrect because while the nature of fraudsters deviate from the norm, the fraudsters often hold a position of trust within the organization.
