As you know, the practice materials [H21-911_V1.0](#) of bad quality are stumbling block to your success.

NEW QUESTION: 1Which two [2] UNIX utilities are used to test network connectivity?**A.** nslookup**B.** traceroute**C.** ifconfig**D.** ping**Answer: B,D**

NEW QUESTION: 2**A.** Option E**B.** Option F**C.** Option B**D.** Option A**E.** Option C**F.** Option D
Answer: E**Explanation:**let's suppose it is a /20 then we would have addresses from 192.168.0.1 to 192.168.15.255 Now let's suppose it is a /21 then we would have addresses from 192.168.8.1 to 192.168.15.255 So both summaries encompass the networks we want to summarize but the second one is the most restrictive one as it only encompasses the networks we were asked to summarize and not others so it is the correct summary. In fact just count the number of subnets which is 8 and find the exponent of 2 which is 8, that gives you 3 and to find out the summary mask just do $/24 - 3 = /21$. if you make it in binary you'll find out the answer too: the interesting octet is 3rd one so let's convert in binary. 8 0000 10009 0000 100110 0000 101011 0000 101112 0000 110013 0000 110114 0000 111015 0000 11111've bolded the bits in common there are 5 so $16+5=21$ which is mask and address is 192.168.8.0

NEW QUESTION: 3You are designing a customer self-service Power Apps portal for Dynamics 365 Sales. The portal will contain thousands of image files that are associated with the customer order histories. The portal must meet the following requirements: * All image files must be hosted in the portal. * The portal must use the URL <http://portal.tailspintoys.com/>. * Performance issues must be minimized when loading the portal page. You need to recommend a process for the company. Which four actions should you recommend be performed in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.**Answer:** **Explanation:** **Explanation Reference:** <https://docs.microsoft.com/en-us/powerapps/maker/portals/faq>

NEW QUESTION: 4You are designing a website for Litware, Inc. A webpage must display the following list of numbered steps: 1. Download. 2. Install the update. 3. Restart your computer. You need to create the necessary markup. Use the drop-down menus to select the answer choice that answers each question based on the information presented in the requirements.
Answer: **Explanation:** **Explanation References:** https://www.w3schools.com/html/html_lists.asp
