WGU Principles-of-Management Exam Questions.

**NEW QUESTION: 1** Refer to the exhibit. A client reports being unable to log into the wireless network. According to the output, which network information should be verified?  
**A.** that the AP has IP connectivity to the authentication server  
**B.** the Failed Attempts log on the authentication server  
**C.** that the authentication and accounting configuration are correct  
**D.** that the user has an account on the authentication server  
**Answer: A**

**NEW QUESTION: 2** SIMULATION A security administrator discovers that an attack has been completed against a node on the corporate network. All available logs were collected and stored. You must review all network logs to discover the scope of the attack, check the box of the node(s) that have been compromised and drag and drop the appropriate actions to complete the incident response on the network. The environment is a critical production environment; perform the LEAST disruptive actions on the network, while still performing the appropriate incident responses. Instructions: The web server, database server, IDS, and User PC are clickable. Check the box of the node(s) that have been compromised and drag and drop the appropriate actions to complete the incident response on the network. Not all actions may be used, and order is not important. If at any time you would like to bring back the initial state of the simulation, please select the Reset button. When you have completed the simulation, please select the Done button to submit. Once the simulation is submitted, please select the Next button to continue.  
**Answer:** Explanation: Database server was attacked, actions should be to capture network traffic and Chain of Custody. IDS Server Log: Web Server Log: Database Server Log: Users PC Log:

**NEW QUESTION: 3** How do you pass an array ['one', 'two'] as a parameter to you block using the layout XML arguments directive?  
**A.** Option A  
**B.** Option B  
**C.** Option C  
**D.** Option D  
**Answer: A**
