NEW QUESTION: 2 A consultant built a very useful Einstein Analytics app for Sales Operations, and they want to share its contents with the rest of Global Sales. However, they do not want to add everyone in Sales to their app. The consultant recommends extending the Sales Operations app and distributing it as an Einstein Analytics template app, but needs to locate specific information to get started. Given the code statement above, which endpoint should it be posted to? **A.** /services/data/v##.#/wave/templates **B.** /services/data/v##.#/analytics/wizard **C.** /services/data/v##.#/analytics/projects **D.** /services/data/v##.#/wave/apps **Answer: C**

NEW QUESTION: 3 Ann a technician received a spear-phishing email asking her to update her personal information by clicking the link within the body of the email. Which of the following type of training would prevent Ann and other employees from becoming victims to such attacks? **A.** Information Sharing **B.** User Awareness **C.** Acceptable Use Policy **D.** Personal Identifiable Information **Answer: D** Explanation: Personally identifiable information (PII) is a catchall for any data that can be used to uniquely identify an individual. This data can be anything from the person's name to a fingerprint (think biometrics), credit card number, or patient record. Employees should be made aware of this type of attack by means of training.
